n.b. A risk assessments should be undertaken for each activity. If the need to wear gloves is identified, this chart will assist in selecting the correct type of glove.

Applications

GLOVE SIZING GAUGE

To achieve maximum comfort and operator efficiency the correct glove size is essential. All Marigold Industrial gloves are available in a range of sizes.

Place one side of your palm against the left hand edge of the gauge below and read off your glove size on the right of the gauge.

ALWAYS ON HAND TO HELP YOU WHEN SELECTING THE RIGHT GLOVE FOR THE JOB

LITERATURE SUPPORT

Safe Glove Removal

Careful removal avoids contact with the outer surface of the glove.

1 Pull glove off at fingertips

2 Crumple glove into a ball

3 With the cuff of the removed glove nip the cuff of the second glove

4 Pull the second glove inside out over the first glove

DO'S & DON'TS for Healthy Hands

- DO...** check the correct gloves for the job have been selected and issued.
- DON'T** wear gloves beyond their useful lifetime.
- DO...** check gloves regularly for any defects or holes.
