

# The Voice of Specialist Contractors

The National Specialist Contractors' Council (NSCC) brings together the common aims of specialist trade organisations within the construction industry and is recognised as the first point of contact for Specialist Contractors by a host of leading organisations including CSCS, ConstructionSkills, the Cross-Industry Construction Apprenticeship Task Force, HSE, JCT, SSIP and the Strategic Forum for Construction.

By focussing on key business issues, NSCC provides advice and support ensuring that its members are uniquely placed to deliver quality, best value and integrated solutions to their clients.

# NSCC

National Specialist  
Contractors Council

YOUR  
money

Implementing **fair payment** throughout the supply chain benefits everyone involved in the construction process and delivers more efficient projects on budget and programme. The Fair Payment Campaign, launched by NSCC, has the objective of achieving proper and timely payment and eliminating cash retentions throughout the supply chain.

YOUR  
time

Reducing the cost, bureaucracy and waste associated with **pre-qualification** is essential if the industry is to operate more efficiently and realise integrated and streamlined project solutions. NSCC offers practical ways to exchange pre-qualification information, assess competence and increase efficiency.

YOUR  
workforce

The future of the industry is dependent upon employers investing in the **training** and qualification of its workforce, and NSCC drives the development of competence standards, skills and apprenticeships in the specialist sector.

YOUR  
environment

The focus on the **low carbon agenda** impacts on every aspect of the construction process including the materials sourced, the building processes used on site and the end product. NSCC is committed to helping the industry to invest in innovation and reduce carbon emissions by providing guidance and sharing best practice.
