**YOUR
business**

The National Specialist Contractors' Council (NSCC) brings together the common aims of specialist trade organisations within the construction industry and is the first point of contact for Specialist Contractors.

The construction industry is vital to the UK economy with every pound invested delivering an economic return of £2.84. By focusing on key business issues, NSCC provides advice and support to ensure that its members are uniquely placed to deliver quality, best value and integrated solutions to the industry's clients.

Campaigning for Fair Payment

Fair payment throughout the supply chain benefits everyone involved in the construction process and delivers more efficient projects on budget and programme. The award-winning Fair Payment Campaign, launched by NSCC, has the objective of achieving proper and timely payment and eliminating cash retentions throughout the supply chain.

A range of support to help Specialist Contractors protect their money including checking the credit worthiness of potential clients, getting contracts right, improving cash flow, and resolving disputes.

- Telephone support
- Credit reports
- Construction finance package
- Online credit forum
- Retention bonds
- Adjudicator nomination service

Reducing Pre-Qualification

Reducing the cost, bureaucracy and waste associated with **pre-qualification** is essential if the industry is to realise fully integrated project solutions, and NSCC offers practical ways to exchange pre-qualification information and increase efficiency.

Preferential rates on a range of products and services specifically tailored for Specialist Contractors to enable them to operate efficiently.

- Telephone support
- Discounted fee for the Builder's Profile
- Insurance advice and products
- Professional photography

Delivering Training

The future of the industry is dependent upon employers investing in the **training** and qualification of the workforce, and NSCC drives the development of competence standards, skills and apprenticeships in the specialist sector.

Access to grants, funding and practical accordance with best practice and legal requirements.

- Telephone support
- Employee benefit schemes
- CRB checks
- Guidance
- Publications

Improving the Environment

The focus on the **low carbon agenda** impacts on every aspect of the construction process with the potential to create new market opportunities and encourage improved ways of working. NSCC is committed to helping the industry to innovate and reduce waste and carbon emissions by providing guidance and sharing best practice.

The latest information on implementing Government initiatives, such as the Green Deal, and working more sustainably including the materials sourced, the building processes used on site and the end product.
